

#### The PediSoft®-TexLine-Benefit

- Cushions distribute the pressure optimally
- Protection against additional external pressure
- Comfortable to wear thanks to the textile cover
- Optimal adaptation to each foot contour via the "Memory Effect"
- After wearing, the material immediately reverts to its original shape
- Very hygienic
- Can be machine washed at 30 °C (with the exception of the Hammer Toe Correction Pad and the Pressure Protection)

## FOOT PROTECTION PROGRAM

for the wellbeing of your feet

PediSoft® – The soft way to keep  
your feet protected

Day by day our feet have to achieve the highest performance, as they carry the total weight of the body. Prolonged standing, excess weight and inappropriate footwear lead to foot problems. Therefore, it is important to take precautions in time.

PediSoft® products can already counteract foot problems at an early stage. They protect all those areas of the foot that are particularly exposed to pressure and rubbing: the ball, sole and the area on and between the toes.

Soft protection for the feet –  
for top wearing comfort.

### The PediSoft®-Benefit

- Extremely comfortable to wear due to the soft and smooth silicone & gel
- Optimal adaptation to each foot contour via the “Memory Effect”
- After wearing, the material immediately reverts to its original shape
- Designed for frequent use, as hard-wearing, hygienic and durable
- Easy to clean with soap, can be disinfected if required

= incl. talcum powder for  
marked products
