All BORT AktiVen® Medical compression stockings have the RAL quality mark from the Gütegemeinschaft Medizinische Kompressionsstrümpfe e. V. [Quality Mark Association for Medical Compression Hosiery].

BORT, AktiVen and all names marked with ® are registered trademarks.

Colour deviations between the depiction on the Internet and in the catalogue and the colour specified in kind are of a technical nature.

We are happy to send you our current Terms of Sale and Delivery for Export Business upon request.

BORT AktiVen®: a brand range with many variants

For individual patient compression care

Medical effectiveness

Modern manufacturing technology and the use of highest quality thread ensure the reliable medical effectiveness of BORT AktiVen® Medical compression stockings.

Care region in accordance with therapeutic needs

The majority of daily indication positions are covered by BORT AktiVen® Medical compression stockings. The physician's diagnosis, localisation of the drainage disorder and the clinical results determine the selection of the stocking type and compression category. The graph shows the application recommendations (colour-highlighted) for the individual BORT AktiVen® product lines.

Up to 8.5 cm	medium
Up to 9.5 cm	large
Up to 10.5 cm	x-large

Structure of the AktiVen® order numbers

The BORT AktiVen® product order numbers are based on clear classification.

They consist of:

- The 3-digit **REF** number (defines quality, design and toe)
- The 5-digit variant number (defines compression class, border/pantyhose, colour, length and size)

Thus, an 8-digit order number results which clearly defines each compression stocking model.

Note: For AD stockings with a grip top, the 3-digit REF number is extended with an H (example: 511H).

REF number			Variant number								
Quality (digit 1)	Design (digit 2)	Toe (digit 3)	CCL (digit 4)		Border/Pantyhose (digit 5)		Colour (digit 6)		Length (digit 7)		Size (digit 8)
